- (h) The quality of the clothes ____ (was/were) inferior.
- (i) Everyone ____ (believe/believes) that he is guilty.
- (j) There ____ (was/were) neither food nor water to be found.

UNIT—III

6. Read the passage given below and answer the questions that follow :

Trees give shade for the benefit of others while they themselves stand in the sun and endure the scorching heat. They produce fruits from which others profit. The character of a good man is like that of trees. What is the use of this perishable body if it is not used for the benefit of mankind? Sandal wood, the more it is rubbed, the more scent does it emit. Sugarcane, the more it is peeled and cut into pieces, the more juice does it produce. Gold, the more it is burnt, the more brightly does it shine. The men who are noble at heart do not lose their qualities even by losing their lives. What matters is whether men praise them or not. What difference does it make whether riches abide with them or not? What does it signify whether they die at this moment or whether their lives are prolonged? Happen what may, those who tread in the right path will not set foot in any other. Life itself is unprofitable to a man who does not live for others. To live for the mere sake of living one's life is to live the life of doves or crows. Those who lay their lives for the sake of humanity will assuredly live forever in a world of bliss.

- (a) Why should we be grateful to trees? 1

- (b) Pick out from the passage the words which have the same meaning as the expressions given below : 1×5=5

(i) Mortal

(ii) Certainly

(iii) Lengthened

(iv) Bear

(v) Gainful

- (c) Why is a good man compared to gold? 2

7. Read the passage below and make a précis of it. Give a suitable title. 7

Deforestation is the permanent destruction of natural forests and woodlands. The rate at which deforestation is happening is a matter of great concern. The phenomenon is the result of large-scale cutting down of forests in order to make more land available for agriculture, industries and housing. There is also a great demand for wood as both fuel and building material. Widespread deforestation leads to a huge increase in carbon dioxide, which is produced when trees are burnt or allowed to rot. Secondly, with vegetation disappearing from the surface of the earth, there is soil erosion.

This is therefore also one of the causes for desertification. Finally, many species are in danger of becoming extinct due to loss of natural habitats. If steps to prevent deforestation are not taken soon, we are likely to lose all our tropical forests in few years from now.

UNIT—IV

8. Write an essay on 'Drug Abuse among the Mizo Youths' in not more than 300 words. 15

Or

Write a report on the celebration of India's 75th Year of Independence in your city. 15
