Prescribed text books, secondary sources and study materials should be made readily available in the college library. Also, both state and national competitive oriented curriculum should be framed for the students.

The curriculum designed is quite good and is aligned to the various state and national level competition examinations. However, since most of the prescribed texts for the English Core students are not readily available in the local bookstores, the hardship of finding and buying prescribed text books has become a major problem for the English Core students.

Quite okay. But, the curriculum framework lack clarity.

Some texts for English Major are not easily available for purchase
