Good

we are very lucky to have good lecturer for our major paper....i'm sure we'll all graduate without having a back paper

A very interesting and fun department where the teachers and the students have a good relationship

They act like our parents.

Dedication teachers.

Excellent

It is good, teachers are all sweet and kind, their teaching skill is good, the teacher maintain good relationship with the learner.

The teachers are very good in teaching and they are easy to approach for anyone.

Very Good

My overall view of the department is good so far.

It is normal

Polscience

I think it's great from the way they teach us and tried their best to guide us.

Excellent

No

Teacher are good

Department of History

Our department is very great in our own way of both studying and teaching ,especially in communicating with the teachers .

Good

Interaction between students and the teacher is good perhaps it is excellent but the portion which we are studying is little bit hard and i have a problem with the books for it is expensive and hard to find and for sometimes we don't have the chance to borrow from the library as the quantity of the books is very limited, and about our portion it is quite difficult to understand especially the poetry and grammar, and for the student it is important to use english more often as most of the student taking English as a major, having major problem in spoken English and using the right grammar and spelling bee, and this is just my opinion and i do not confines my words as the right one, as everything has a negative and positive side and also some of my word can be adaptable by adjustment of the student not just the teacher and institution, but i find it quite hard for some of my friends coming from village and poor background who don't have a part time job or vehicle to roam around in search of books and material, and about our activities, if possible, it is better to chose a hall\ground where transportation is easy or where city bus is available for such occasion or program

For me the teacher are good and the explanation is also good

It's very good , our professor are hard working, but sometimes their explanation can be a little confusing, but overall they are a very good teachers

It's pretty normal

Govt.Johnson College is the best college in my own and the teacher are good teach in the lesson and easy understanding.

Johnson college needs to work very hard in every way, also the students and professor are also very good but they have to pay more attention in every way to make johnson college more prefect.

Not good at all

Excellent collage

We need more improvement

To have more activities for development

All good

i wish our college have toilet in every floor with two mirrors in each.

Prefecr

Good

We have to good teacher in our college

Nom

No doubt it is the best college for me to study and i do like it very much 😊

If our college had more fun things or interests thing to make us realize what we are interests of any to guide us to know what we like and opportunities for our future

Nope

about our activities, if possible, it is better to chose a hall\ground where transportation is easy or where city bus is available for such occasion or program , participating in program such as inter beat contest, basketball, football, volleyball

Creating music club for musicians in college as we find it difficult in choosing such club which we are not interested,

The college is good but i would like to say it can improve much like the teacher and the students and the college

Please care about NCC as much as you care about SU and another club, we are also the important face of the college

Thank You

It's pretty fun, learn a lots of new thing
