I think the economics department is very good. The education we received was satisfactory. The professors are very nice and the relationship with the students is very good

As an Economics core student, I am truly inspired by the ex-students that have already been graduated from our College. Some of them were toppers and rank holders in Economics. This is a living fact that the facilities, materials and all the needed things are all provided in our College. Plus it is also true to say that, we receive proper teaching and guidance from our teachers. Teachers make sure that no students are left behind in studies, by making sure we do all the necessary assignments, works and studies required to get great results. Talking about materials, we have all the necessary materials required. From a space where we can work, to the place where we can have fun. From classrooms to playgrounds, from Hall to every club rooms. That's all I have to say. Thank you.

## ANY SUGGESTIONS/ COMMENTS/FEEDBACK ON THE COLLEGE

41 responses

Good

No

Govt johnson college

My suggestions: 1.Better sound system to all the classes( As there are many students in some core rooms, better to use microphones.)

2. Proper washroom (Most of the wash rooms are always flooded , plus most of the washrooms are always dirty.)

3. Better understandings by the HODs and by our respected Principal.( Even if we have reasonable leave letter, we are still rejected most of the times.)

4. Language barrier ( I personally think that the teachers should use English more in the class, as we also have many students that are non-Mizo speaking. Also,all the information should be provided in English.)

Thank you.

In my point of view the College is really good for me an my fellow students. The relationship between The Principal, Staff (Teaching and Non-Teaching) is quiet excellent. It's the best College I've ever studied in for my entire life.

Good

Great

Very poor

Comfortable

Yess, the good teacher and students are relationship is now good and college are good

The college must organise more competitions so that the students have a competitive mind in their studies and duties

I think we need to improve in everything because our college is very low in education we have a good building but our result is so bad and we need to improve in education and students need to try their best in their studies

Very Good

it not that bad about our college it average

Good experience so far

Keep striving for perfections...

I want the college and the students to have a very healthy and competitive mind for better results. It would be lovely to change or renovate the buildings, like painting the hallway (201&202 hallway especially!!) It's dark, cold and gloomy. How about planting some flowers on the hallway? I think that would made the hallway more lively. Thank you and have a great day!!

Our college was good

We need to improve and try harder in education

Excellent

Its a beautiful and most place i was having some friends and i really want to study the whole of life

Gjc college is not that bad also the environment is also good

To improve library book.

Johnson college is a very happy and friends very kind

Need more activity

If it is possible,there are others who don't speak mizo language and as all of the explanation is done in mizo sometimes it is difficult for them to understand and it would be better in my opinion if the explanation are sometimes done in english

Excellent

There are many things we have to improve on compared to other colleges. One of the things we need to improve is that we can issue notices late. Class suspensions are only known after we wait for the teachers. It would be good if we could improve ourselves in this regard

One of the best institutions in Aizawl
