Education is the most third important place to know, learn and understand how to see what is right and wrong. If we can afford it, let's just build our knowledge. Even if we are faster or slower than others.

I don't know what to say

So, Political science core teachers are very good,

The curriculum activities of our syllabus give me some interesting but not at all, if the faculties or staff could be strict more than the past, then our studies also be developed and also had many achievement.

College education and teaching is good ( depends on students, answers may vary)

Our college professor teaching skills are, good ang strength, and he inspired our future career

If possible I want our paper 12 professors to provide good material and explain more details

I think the teachers did a great job trying to teach us not only on the ground of academic but also gave us outside knowledge which will be relevant for our later life. And they are fair to

everyone and does not have biasness towards anyone.

Kan zirtirtute hi kan zirna bakah kan hmalam hun thlenga min ngaihtuah tute an ni a,min zirtirna leh min fuihna te hi tha kati takzet a ni.

Every Teachers are good at their jobs , Not only at our lessons, they help us and teach us how to live life , and all those motivations helps a lot and inspire me to move forward.

I'm very happy with all our professor, i rate 10/10

Our teachers are so good, they stand for them in any situation, BA English is so good and interesting for me but....we learn 20 books and it's expensive, we can't buy all of them our library is not good enough because we can't see a book we like

All the teaching staff are excellent and patient with the class. They know their lesson well and deliver it nicely.

My college has been great institution for me,and I've learned and studied many new things that helped me to move forward in my live.My faculties are a great teachers and I'm very grateful to their commitment.

In this college, I experience all the professors(the subj.i take) teaches us an excellent way,they had been doing as much as they can. We have close relationship between the student and professor.I learned a lots of things from them for my future life.and I appreciate it. ❤️

Our college give me a great knowledge and build me up to a good path, the way the teachers teach us also good,they teach us the way to live.

I am impressed with your curriculum and teaching method which is different from other college.

Zirtur tha tak tak kan nei a, kan syllabus mai bak a thu tha tak tak min hrlh thin a,kan vânei hle...class lâk pawh nuam thin hle.

I think our classes are good. But sometimes there's some other activity from the college. It is hard for the student to keep up because we are 18+ and some of us are poor and can't rely on our parents money. So i think we need to lessen our college activity not our classes.

In my opinion our classes are very good but sometimes some activities are a little bit harder for student,but teacher also tried their best in their lecture and i really appreciate it

Teachers give us the best lecture and I am improve myself alot in their lesson. I think we got best teacher .I want suggest that if they teach us more about our future in finding job. So that we can know how to get job because student are not know about how to find job in the future. Let give us important information according to find job.

The teachers are doing utmost to ensure that the students have a bright future.Therefore,I think the learning process is good

Its good

Myself I feel good this syllabus actually this syllabus could bring well developed such as knowledge and life skills.

Good teaching conduct

We need a reduced syllabus with a wider scope.

It is good enough

Perfect

I wish the college had a bus .

No feedback

It will be delighted if the college can provide more suitable and relatable books for every syllabus
